Professional Experience

Realtor Website - Frontend Development 5/22 - Present

Freelance

- Planning and executing a professional website with Next.js and CSS3.

Music & Tutoring Website - Frontend Development 1/22 - 3/22

Freelance

- <https://www.seanthekeeganator.com>
- Coordinated a team to build a React website that under the hood, delivers two highly scalable sites.

Landscaping Website - Frontend Development 11/21 - 12/21

Freelance

- [begoniabaschylandscaping.com](https://www.begoniabaschylandscaping.com)
- Designed, created, and deployed a website for a client's landscaping company using React, CSS3, and Next.js.
- Amplified customer satisfaction by adding YAML to allow the client to alter data themselves.

Projects

CarefulFriends - Health App

- carefulfriends-client.herokuapp.com
- Implemented a fullstack application using MERN with full CRUD, polished with Bootstrap.
- Explored JSON Web Tokens and discovered intriguing challenges setting cookies with React.

TellyCritic - Film Review Site

- telly-critic.herokuapp.com/sessions/new
- Generated with Express, MongoDB, Mongoose, styled with CSS3 and Bootstrap, and coded with EJS, and HTML5.
- Tackled express-session/bcrypt and security error messages to turn out a private login page.

Connect Four - Game

- amberwhizin.github.io/connect_4
- Assembled a frontend game after Connect 4 with jQuery, HTML5, and CSS3.
- Trouble-shot and completed game logic to win horizontally, vertically, and diagonally.

Education

General Assembly, Boston, MA 9/20 - 12/20
